PROFESSIONAL EXPERIENCE

Sr. BI Developer | Leveor, US (Remote) | *Restaurant chain* **2026**

- Built a Snowflake medallion architecture (bronze, silver, gold) that turns raw restaurant data into clean, analysis-ready tables.
- Delivered 15+ gold-layer data models that the company's Sigma reporting is built on.
- Encoded business logic in stored procedures and automated the pipelines with Integrate.io scheduling.

BI Developer | Lunar Tech, UAE (Remote) | *Prop trading* **2026**

- Owned Power BI reporting end to end, delivering 15+ reports from requirements and data modeling through to dashboards the business used.
- Designed the Snowflake data model and a shared Power BI semantic model used across departments, giving the business a single source of truth.
- Turned open-ended business questions into focused analysis and clear recommendations.

Business Intelligence Analyst | Buddy & Selly, Germany (Remote) | *E-commerce* **2024 – 2026**

- Automated reporting end to end across BigQuery, Power BI, Excel and Google Sheets, cutting manual reporting effort by 40% and making data refreshes reliable.
- Built the Power BI data models and KPI dashboards the Sales, Purchasing and Marketing teams used to track performance.
- Turned DHL logistics, inventory and purchasing data into recommendations that shaped product journeys and pricing.

Data Analytics Engineer | Onwards Analytics, Australia (Remote) | *Mining* **2024 – 2026**

- Delivered value-chain analytics for a Tier-1 mining company, including 10+ production reports for its improvement team.
- Fixed long-queue Power BI refresh issues across 5+ reports, cutting refresh time from 35 minutes to 5.
- Built ETL processes and Power BI dashboards to monitor production, cost and performance, and debugged source data models so figures stayed consistent across reports.

Associate Data Analyst | Transcom Ltd, Bangladesh | *Pharmaceutical* **2023 – 2024**

- Built 15+ SSRS and analytical reports that gave stakeholders a regular view of sales and distribution.
- Tuned the SQL behind the reporting, making queries 15% faster.
- Administered Power BI and Qlik Sense and supported their users day to day.
